

Designed in the DMs — Episode 1

Jess "VinylVixenJess" Bonafacio · Head of Restyle & R&D · RestyleProAI™

FORMAT IG Reel / Short · 60–90 sec · 9:16 vertical · Raw handheld + screen record

1. HOOK (0–3 SEC)

"Today a follower is getting a FREE custom wrap design. Let's see who it is."

Selfie-style or zoom on the DM you picked. Face on camera.

2. SETUP (3–15 SEC)

"I picked @theirhandle because [one real reason — cool vehicle, fun message, they've been hyping our posts]. Let's build their wrap live."

Show their car photo from their DM. Text overlay: their handle.

3. DESIGN PROCESS (15–50 SEC)

Screen-record DesignPro as you work:

"I'm dropping their Tesla into DesignPro. Going purple fade — because they said their fave color is plum."

"System is rendering front, side, rear — this takes about 30 seconds."

"Here's the hero shot. And the panel breakdown."

Tip: Explain what you're picking and WHY. That's what makes it feel personal.

4. REVEAL (50–75 SEC)

Full-screen hero render — no voiceover for 2 seconds. Let the design breathe.

"That's their wrap. Free. Sent straight to their DMs."

"Every month I pick one. Follow + comment to get picked next."

5. CTA (75–90 SEC)

"Tag a wrapper who needs this. And DM me your car for a shot at next month's design."

End card: RestyleProAI logo + "Designed in the DMs — VinylVixenJess"

CAPTION (POST BODY)

Designed in the DMs #1 ●

@theirhandle got picked this month – plum purple fade, because they asked for it.
